

*M. Ball*

February 11, 1922.

Memorandum for Mr. Christoffers:

Please ascertain and advise whether the Bering Sea Fisheries Co., 305 Boston Block, Seattle, operated any of its cod stations in the Aleutian Islands Reservation in 1921. If they did, a report should be submitted.

A report from the Juneau Cold Storage Co. was received this morning.

Reports from the Hidden Inlet Canning Co. and the Bainbridge Fisheries Co. have not been received, though you say that they have been mailed, according to information given to you by the companies.

Please press the matter of a report by the Admiralty Packing Co. It, and that of the Hidden Inlet Canning Co., are the only outstanding reports of canneries for the southeastern district. Cannery reports for the central district are all in except the Bainbridge Fisheries Co. and the Hillery-Scott Co. Western Alaska is complete, as far as canneries are concerned, except reports from the Alaska Salmon Co., and the Phoenix Packing Co., if it operated.
